## **SITE2 ANNOUNCES SUCCESSFUL COMPLETION OF MSPALLIANCE MANAGED SERVICES ACCREDITATION PROGRAM**

*Site2 joins program providing assurance of quality, and reliability for current, potential customers; vendor-neutral benchmarking for Managed Services practitioners worldwide*

SCRANTON, PA – OCTOBER 6, 2010, Site2 today announced that it has received accreditation under the MSPAlliance's (MSPA) Managed Services Accreditation Program (MSAP). MSAP is the first program of its kind, specifically designed and created to provide customers of managed services providers with the assurance that the services provider they hire meets or exceeds the highest principles of quality in areas such as financial stability, facilities, managed services practices, and customer satisfaction.

"The Managed Services Accreditation Program is a rigorous program that benchmarks and verifies the quality of the company providing managed services," said Charles Weaver, MSPAlliance president. "We are very proud to have Site2 as a part of this prestigious body of MSPs."

MSAP was created, using a wide base of criteria that will properly encompass a wide range of managed service providers. By covering buying and service delivery criteria that matter to customers, the MSAP certification program tracks and measures a satisfactory level of professional and business practices, helping MSPs to consistently deliver superior services to their clients.

"Site2 is pleased to receive this recognition from the MSP Alliance," said Marc Gonzalez, COO of Site2. "We strive to provide our clients with the finest managed services, focused on information privacy and security. This accreditation is a testament to our policies as well as our employees who maintain them."

Site2's managed services focus on cloud based business continuity services designed to provide organizations with operational resiliency, while improving their security, privacy and compliance. Site2's services include cloud backup services, powered by Asigra, virtual server hosting, colocation services, workspace recovery, and risk management consulting.

The MSPAlliance, with over 10,000 corporate members worldwide, is committed to increasing reliability and dependability in the industry surrounding the value and benefit of using Managed Service Providers to provide a wide range of mission-critical services. In addition, the MSPAlliance collects data on the practice of managed services on behalf of its members, to help them increase the value delivery of IT to the organizations they serve.

## SITE2 ANNOUNCES SUCCESSFUL COMPLETION OF MSPALLIANCE MANAGED SERVICES ACCREDITATION PROGRAM
